"My favorite part of studying in Barcelona was the ability I had to explore the city everyday. I loved seeing all that Barcelona has to offer, and the Barcelona SAE Bucket List was a great way for me to do that...I've seen places that I never would have thought to explore on my own, and it helped me step away from being a tourist and really make Barcelona my home!"

Brianna Fogo, Illinois Wesleyan University

WHY BARCELONA?

THE BARCELONA BASICS

Barcelona is located on the northeast coast of Spain on the Mediterranean sea. The city's population is just over 1.6 million, making it Spain's second largest city.

WE LOVE BARCELONA...AND HERE'S WHY YOU WILL, TOO:

- ✓ Art is everywhere. From Picasso and Miró to street art, we can't get enough!
- ✓ History meets modern day in this city that is over 2,000 years old. Where else are you going to find a Roman wall as the backdrop to an electronic music festival?
- ✓ Barcelona is walkable so you won't miss your car...the city is best explored on foot.
- ✓ Barcelona is one of the top destinations for European university students, and is a hub for European entrepreneurship and startup companies.
- ✓ Multicultural and multilingual, you'll be amazed at the talented and creative people you'll meet that make this city so vibrant.

CAN YOU LEARN SPANISH IN BARCELONA?

¡Claro que sí! Barcelona is a wonderfully diverse, multilingual city. Most people who live in Barcelona speak both Spanish and Catalan, and many also speak English. You will improve your Spanish through intensive language classes, language exchanges and activities, and will likely pick up some Catalan as well.

"The most valuable thing that I learned in Barcelona is to not be afraid to do things you've never done before. My goal in studying abroad through Barcelona SAE was to push myself outside my comfort zone. It was difficult at first, but I definitely learned a lot by trying so many new things." Bryan Kim, Carleton College

PROFESSIONAL DEVELOPMENT

From workshops like "Working Across Cultures" to "Building Study Abroad into your Resumé" and multiple opportunities to attend networking events, you'll be more prepared to face the workforce than ever before.

COMMITMENT TO DIVERSITY & INCLUSION

Barcelona is a city that thrives on diversity, and here at Barcelona SAE, our staff shares a similar mentality. We created TODOS (The Outcomes-Based Diversity Outreach Strategy) aimed at removing the barriers keeping students and educational institutions of varied diverse economic, educational, ethnic and social backgrounds from studying abroad.

"I think Barcelona was the perfect city to study abroad in, and I am very grateful to Barcelona SAE. The program was very organized and I loved all of the included activities. I would especially recommend a homestay because I had a great experience. I absolutely loved the staff, all the activities, the classes...everything!"

Lindsey Okeson, University of North Dakota

DIVERSITY & INCLUSION

Barcelona is a city that thrives on diversity, and here at Barcelona SAE, our staff shares a similar mentality. Our nationally-recognized diversity and inclusion initiative, TODOS, provides support for underrepresented groups and we're proud to offer study abroad and internship programs for students with a wide variety of backgrounds.

TODOS: THE OUTCOMES-BASED DIVERSITY OUTREACH STRATEGY

While the definition of underrepresented students is broad, TODOS is focused on results/outcomes of diversity and inclusion measures put in place to remove the barriers keeping students and educational institutions of varied diverse economic, educational, ethnic and social backgrounds from studying abroad in Barcelona, Spain.

"Studying abroad has been the greatest experience of diversity in my life so far. When I was younger, I thought diversity was just the interaction between different races and cultures - but my time in Barcelona made me realize that diversity is more about experience."

Devin Fisher, TODOS Scholar, University of Dayton

THE FOUR PILLARS OF TODOS

- ✓ Providing Financial Resources
- ✓ Inclusive Academic Programming
- ✓ Targeted Outreach
- ✓ Intercultural Training

TODOS PRE-DEPARTURE DIVERSITY SERIES

Each accepted student is invited to participate in the interactive pre-departure diversity series featuring topics such as Race and Ethnicity in Barcelona and the LGBTQIA+ Community in Barcelona. During these webinars, presenters moderate discussions around topics and focus on highlighting student concerns and resources available onsite.

BARCELONA SAE DIVERSITY RESOURCES

Our online student guide includes a section on Diversity and Inclusion Abroad. These are resources for dealing with adversity and tips on how to get involved in the city's diverse culture. The guides focus on ethnic diversity, religious diversity, LGBTQIA+ resources and for those with limited mobility. Students often come to us with new ideas to add to these resources and stories of how they were able to become part of the local culture.

HBCU PARTNERSHIP INITIATIVE

The HBCU Partnership Initiative provides support to HBCU partners through targeted engagement and program development for faculty, staff and students. This initiative highlights our unique diversity programming, academic offerings, and scholarship opportunities.

"I really wanted to be somewhere speaking Spanish, but I must admit that I was looking at prices much more than location. The TODOS Need-Based Scholarship really helped and I am so appreciative of Barcelona SAE and their focus on inclusion."

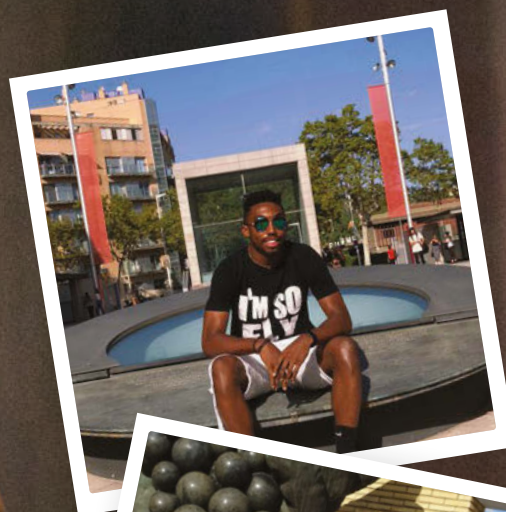

Liliana Brown, TODOS Scholar, California State University - Long Beach

"There's something about a new environment that makes you more appreciative. During my time with Barcelona SAE, I developed a greater understanding of culture while reflecting on my own traditions."

Donovan Gayles, TODOS Scholar, Susquehanna University

Founded in 1450, the Universitat de Barcelona (UB) is the oldest and largest university in the Catalonia region and boasts an annual student population of over 90,000. It has always placed importance on international relations and for many years it has been the leader among European universities to host international students – around 5,000 students annually.

The UB offers an Estudios Hispánicos program taught in Spanish for non-native or fluent speakers and is based on Spanish and Latin American culture.

The Universitat de Barcelona (UB) is recognized by the Spanish Ministry of Education as a degree granting institution of higher learning. After completing a Barcelona SAE program at UB, the transcript will be sent directly to the student's home institution

"I felt completely supported and safe throughout my entire Barcelona SAE program. The staff did a wonderful job of providing detailed pre-departure information, the excursions were great, and my classes were small which created a really comfortable learning environment. The program's guidelines for safety and dealing with COVID-19 was also very comforting. I would absolutely recommend Barcelona SAE without hesitation!"
