# Certificates

A certificate is an academic specialization in a certain area of study consisting in (of) 5 to 6 courses that can be taken in one semester. At the completion of the program, you will receive an official diploma of recognition.

The courses offered under the certificate programs are classes that Mexican students also take as part of their specializations, so as an international student you will be interacting with these and other international students in the classroom. More than 20 different certificates are currently offered at Tec de Monterrey. Some are offered fully in English.

CERTIFICATES IN ENGLISH	AVAILABILITY:	
	FALL 2020	SPRING 2021
Artificial Intelligence and Embedded Systems	MTY	
Business Technovation	GDA	GDA
Characterization and Extraction of Biomolecules	QRO	
Civil Engineering Fundamentals	MTY	MTY
Civil Engineering Infrastructure	GDA	GDA
Control Systems	GDA	
Energy in the Process Industry	MTY	MTY
Industrial Automation	CEM / MTY	CCM / MTY
International Ports Logistic	PUE	
Milk and Coffee Industrial Process	PUE	PUE
Molecular Biology		CCM
Monitoring and Advanced Control Specialization	MTY	MTY
Operation Excellence	QRO	
Processes, Engines and Control Systems for Automotive Design	CEM / MTY	
Smart Cities	GDA	
Supply Chain	MTY / CSF	MTY
Supply Chain of National Materials in the Automotive Industry	PUE
