

Early Childhood Engagement
E3 Children's Garden
Summer 2026

My Duties

- Watering plants
- Cleaning activity areas
- Trimmed the caterpillar topiary
- Observing Children's interactions
- Practicing creating kids programming

Event#1

Children's Garden Sensory Adventure

- Day of Music
- Around 90 children participated
- Allows children to explore using sight, smell, and touch
- Encourage participation instead of just observing

Detective Color Activity

Before Event

Event #2 During Evening Stroll Bamboo Sound & Coloring

Around 40 children participated

- Sensory Learning
- Natural sound
- Creativity

Event Flyer

Activity Sheet

TABLE 1 Bamboo Sound

TABLE 2 Bamboo Coloring

ACTIVITY

- Collected dry bamboo from the garden
- Cut it into smaller pieces
- Smoothed the inside and outside edges with sandpaper

OUTCOME

- Children explored real bamboo through touch and sound
- Encourage curiosity, creativity, and sensory learning
- Each child decorated a bamboo piece to take home

Collecting Bamboo

Cutting/smoothing bamboo

Decorated a sample bamboo
with the panda sticker

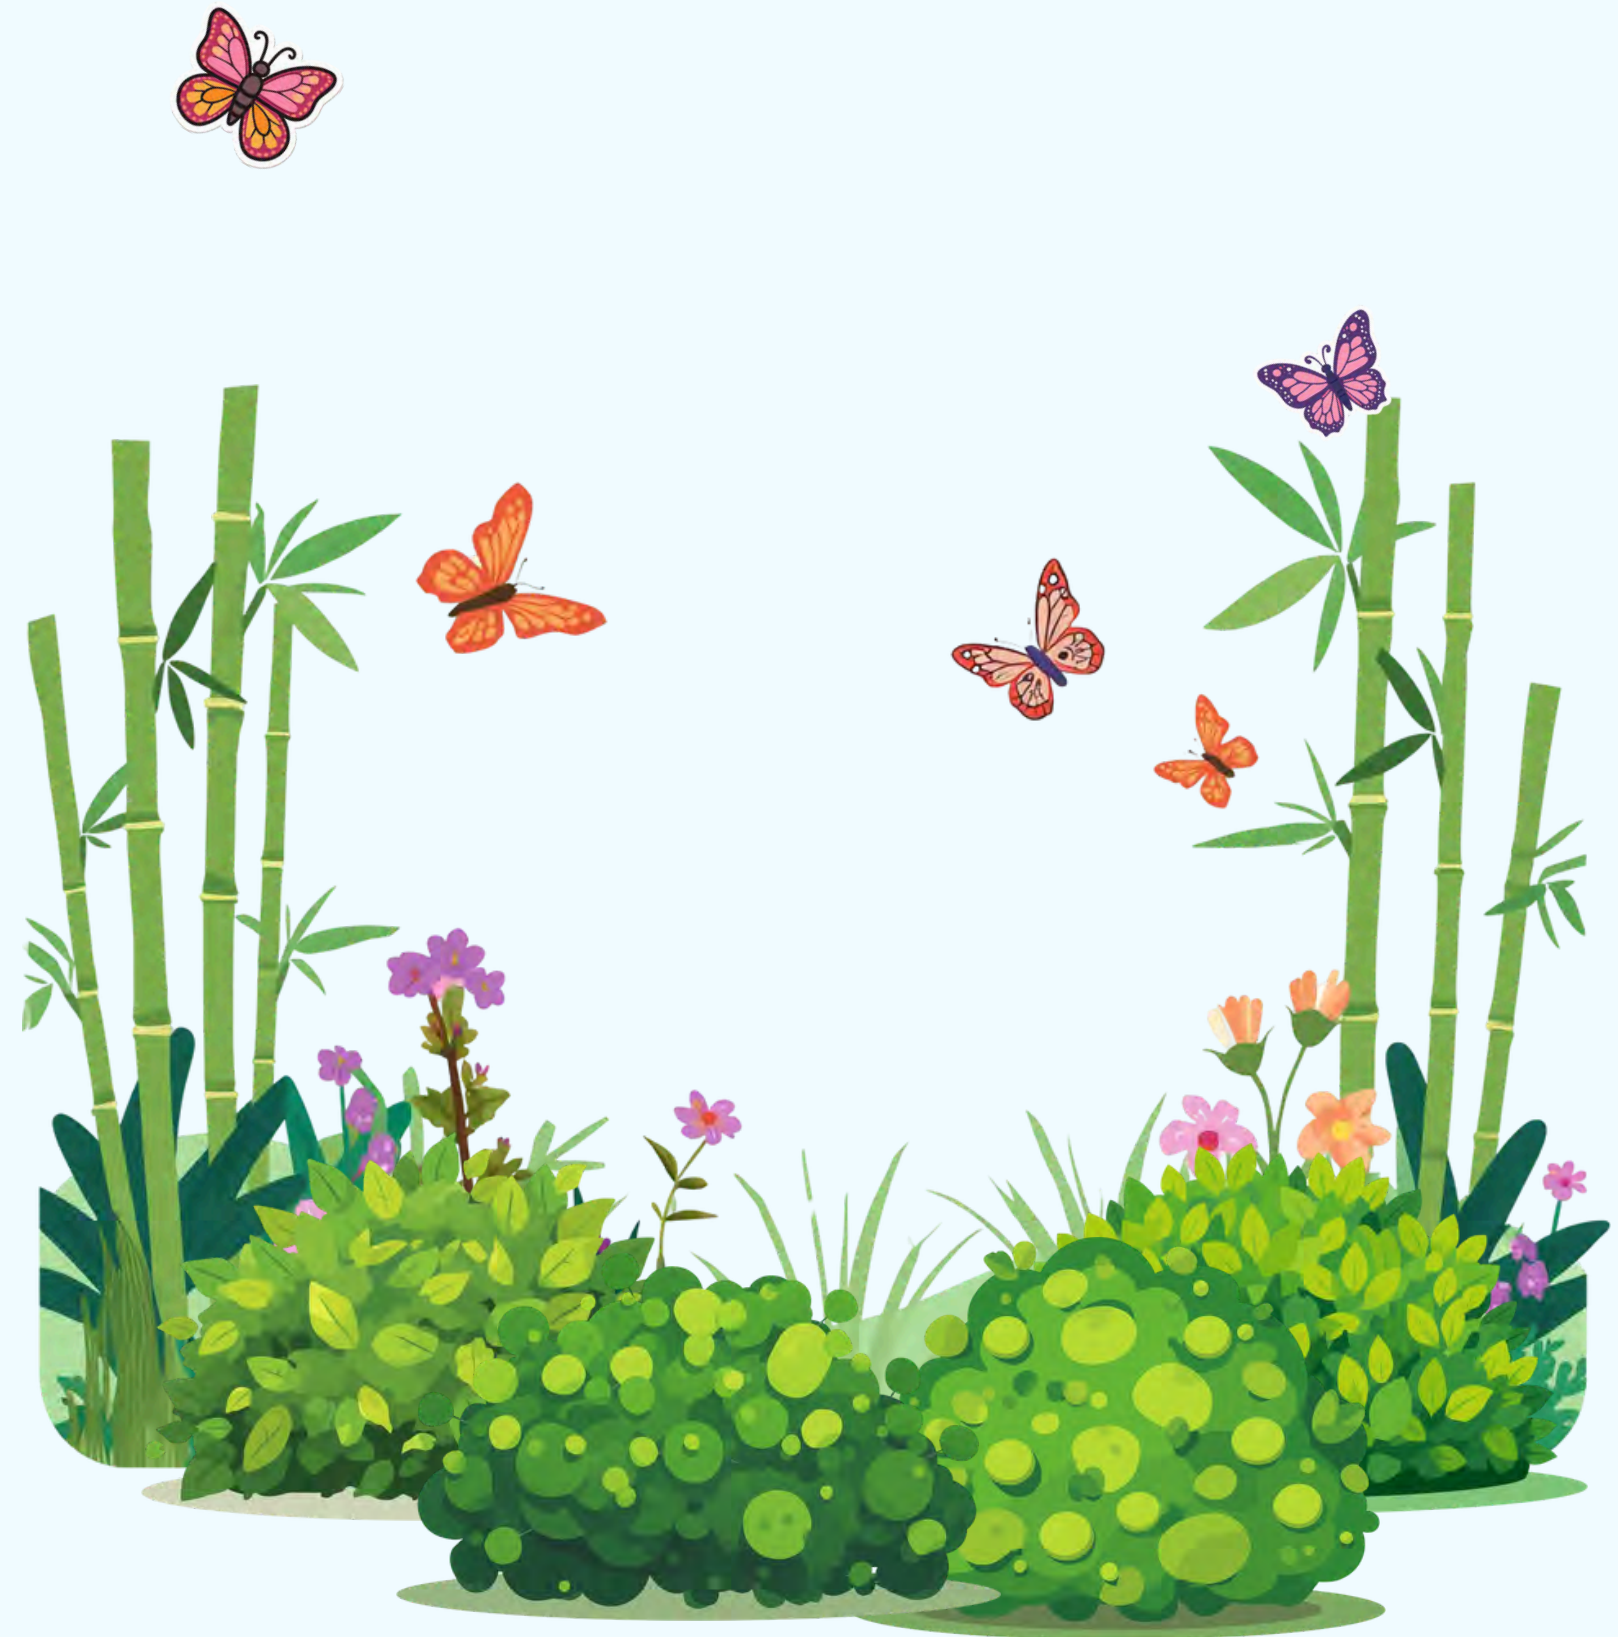

Decorated bamboo with seeds, rice and tiny stones.

Created the bamboo activity sign

Key Takeaways

- Children are more engaged when they can touch, listen, and explore
- Positive activities can make children feel confident to explore and try new things
- Nature can be a fun environment for learning and social interaction

Thank You!
