Are you fascinated by the world of biotechnology and eager to explore the diverse career opportunities it offers? Join us at the Biomanufacturing Career Pathways Expo at the Rongxiang Xu Bioscience Innovation Center at Cal State LA. Gain valuable insights into the dynamic field of biomanufacturing and learn about the various career paths available to you.

BIOMANUFACTURING CAREER PATHWAYS EXPO

Career Exploration: Engage with industry experts and professionals who share their experiences, insights, and advice on pursuing a career in biomanufacturing. Gain valuable tips on career development and hear success stories from those who have made their mark in the industry.

Networking Opportunities: Connect with representatives from leading biotech companies, research organizations, and educational institutions. This is your chance to build valuable connections, explore potential job openings, and discover internship opportunities.

Exhibitor Booths: Explore interactive displays and exhibits showcasing the latest advancements in biomanufacturing technology. Learn about cutting-edge techniques and innovations that are shaping the industry's future. Meet potential employers and learn about job openings and co-op opportunities. Bring your resume and be prepared to make a strong impression.

Xu Biospace Innovation Center: Tour the facilities and hear about the biotechnology field from informative speakers led by industry experts. Topics will cover many subjects, from bioprocessing techniques to regulatory compliance, providing a well-rounded understanding of the field.
